DISPERSION CHEMICALS

ABOUT US

"WE AT KPDC ARE SERVICE PROVIDERS FOR THE INDUSTRY, BY PROVIDING RELIABLE RAW MATERIAL AND TECHNICAL CONSULTING TO CLIENTS FOR COST SAVING AND BRINGING EFFICIENCY IN THEIR PRODUCTION PROCESSES."

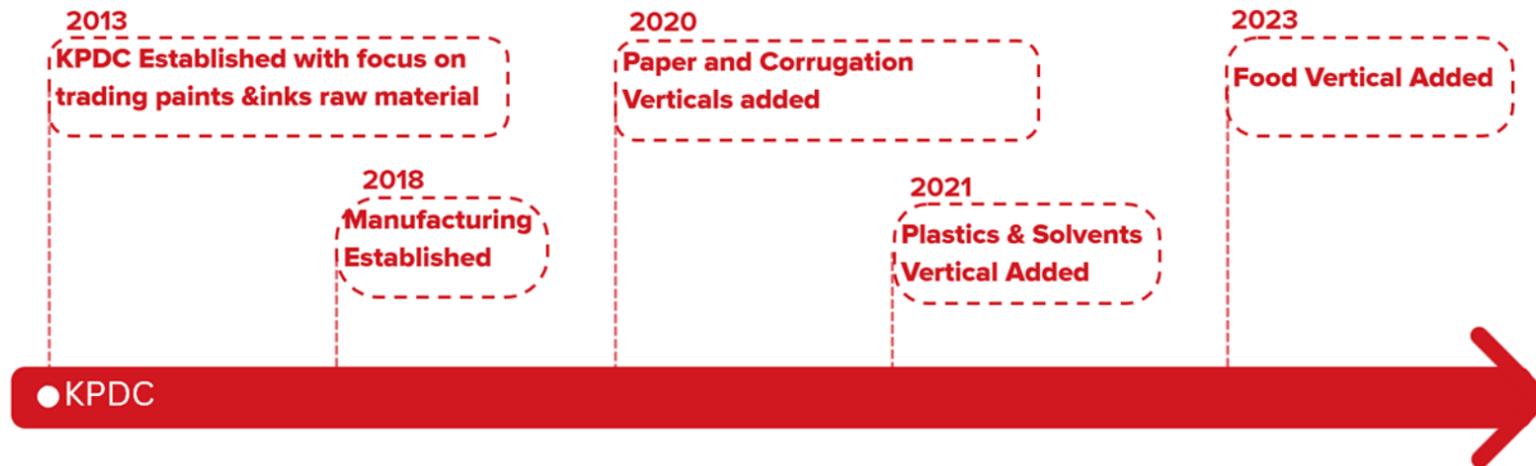

Founder of KPDC Group and CEO is experienced professional having 20+ years experience at top Positions with Renowned Blue Chip Companies. His key area of expertise are Multi-Tasking, Strategic Intelligence, Team Building, Financial Planning & Visionary Thinker. profitability.

MUHAMMAD ROOMAN SARFRAZ
KPDC Group Founder and CEO

At KPDC, we specialize in the trading and manufacturing of cutting-edge chemical solutions designed to enhance performance and dispersion across various industries. With a commitment to innovation, sustainability, and excellence, we strive to be the preferred partner for businesses seeking high-quality chemical products tailored to their specific needs.

At the core of KPDC's vision is the aspiration to redefine industry standards through the provision of advanced chemical solutions. We envision a future where our products play a pivotal role in optimizing performance, fostering sustainability, and driving progress across diverse sectors globally.

KPDC is to empower businesses with superior chemical solutions that elevate their performance and competitiveness. Through relentless innovation, stringent quality control, and unwavering dedication to customer satisfaction, we aim to be the catalyst for our clients' success, ensuring they stay ahead in an ever-evolving market landscape.

MAPPING

At KPDC, sustainability knows no boundaries. Our global network of branches is united by a shared commitment to environmental stewardship and responsible business practices. We prioritize sustainability in every aspect of our operations, from sourcing raw materials to manufacturing processes, reducing our ecological footprint and shaping a more sustainable future for all.

Technology is the backbone of our global operations at KPDC, connecting our worldwide branches and empowering us to innovate and drive progress like never before.

Through advanced automation, digitalization, and state-of-the-art manufacturing facilities, we leverage technology to streamline processes, enhance quality control, and deliver superior products to customers around the world.

Our global network of branches serves as hubs for groundbreaking research and development, driving progress and shaping the future of the chemical field on a global scale. Our researchers collaborate across continents, pioneering breakthrough technologies and formulations that address the evolving needs of our customers and industries.

POWERING a Sustainable Future

Safety, a daily priority

KPDC Group is committed as a priority to guaranteeing the safety of its employees, its clients, subcontractors and stakeholders.

Each year, audits on quality, health, safety and environmental aspects are conducted on KPDC industrial sites and several indicators are monitored.

Regarding safety on clients industrial sites, new training programs, reviewed safety measures and a better management of personal protective equipment are performed as part of KPDC continuous quality processes. They aim at creating a close partnership between KPDC clients, employees and subcontractors

Minimized environmental impact

At KPDC, we are more than a chemical company; we are architects of progress, dedicated to shaping a brighter, more sustainable future for generations to come. Whether you're a partner, customer, or stakeholder, we invite you to join us on this journey of innovation, sustainability, and technological advancement. Together, we can unlock new possibilities, drive meaningful change, and build a world where performance meets sustainability, powered by KPDC - the global leader in performance and dispersion chemicals.

Innovation is the lifeblood of KPDC, driving us to continuously push the boundaries of what's possible in the chemical field. Our dedicated team of researchers and scientists are at the forefront of R&D, pioneering breakthrough technologies and formulations that address the evolving needs of our customers and industries. Through collaboration, experimentation, and a relentless pursuit of excellence, we are shaping the future of chemistry and driving progress worldwide.

In the dynamic landscape of modern industry, technology is a catalyst for innovation and growth. At KPDC, we embrace the latest advancements in chemical engineering, automation, and digitalization to push boundaries and unlock new possibilities. Our state-of-the-art facilities are equipped with cutting-edge technology, allowing us to streamline production, enhance quality control, and deliver superior products with unmatched precision and efficiency.

Driving Values

Our values are the foundation for achievements. They inspire our management policy and guide us in our everyday activities as individuals, as a team and as a Group.

Unlocking Global potential

At KPDC, we are not just a chemical company; we are pioneers of progress, leveraging the power of innovation, sustainability, technology, and relentless R&D to redefine industry standards on a global scale.

Sustainability at the Core

We recognize our responsibility to the planet and future generations. That's why sustainability is woven into the fabric of everything we do. From sustainable sourcing practices to eco-friendly manufacturing processes, we prioritize environmental stewardship at every turn.

Powering Industries Worldwide

KPDC's impact resonates across continents, powering industries with our cutting-edge chemical solutions. From adhesive formulations that bond materials seamlessly to coatings that protect infrastructure against corrosion, our products serve as the backbone of countless sectors, driving efficiency, reliability, and performance.

Leading the Way in R&D

Innovation is the lifeblood of KPDC, driving us to continuously push the boundaries of what's possible in the chemical field. Our dedicated team of researchers and scientists are at the forefront of R&D, pioneering breakthrough technologies and formulations that address the evolving needs of our customers and industries.

Powering Integrated Solutions

In the dynamic landscape of modern industry, technology is a catalyst for innovation and growth. At KPDC, we embrace the latest advancements in chemical engineering, automation, and digitalization to push boundaries and unlock new possibilities. Our state-of-the-art facilities are equipped with cutting-edge technology, allowing us to streamline production, enhance quality control, and deliver superior products with unmatched precision and efficiency.

Clients

Products

Industries

Product Development

Consultancy

Our diverse experience and close collaboration with industry provides us with an opportunity to provide consulting services with focus on clients' critical issues of Product, Market and/or industry.

Trading

Embark on a journey of dynamic chemical trade with our company, where expertise meets reliability. As seasoned traders, we connect industries with premium chemical solutions, fostering seamless transactions and elevating the supply chain with excellence.

Manufacturing

Welcome to the forefront of innovation and excellence in chemical solutions. As leading manufacturers, we combine cutting-edge technology with a commitment to quality, delivering bespoke chemical solutions that meet the diverse needs of industries worldwide.

Indenting

Step into a world of strategic chemical solutions with our indenting services. As a trusted chemical company, we specialize in sourcing and supplying a wide spectrum of high-quality chemicals, ensuring seamless access to the finest raw materials for industries globally.

Our Process

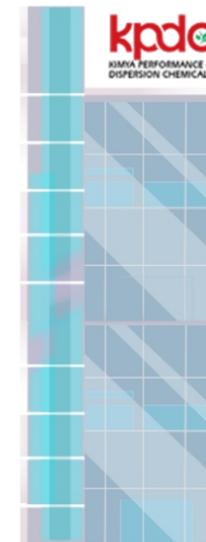

Bring in industry specialist as members of the company

Industry specialists develop forward/backward trading linkages

Market sizing and scoping for selected items for inhouse development

Active development for Trials by R&D Department, bulk testing and subsequent approvals from clients

Product launches by KPDC achieving cost cutting for clients and better margins for the organization

Coatings

Paper & Corrugation

Construction

Food

Foam

Inks

Leather

Pharmaceutical

Petro Chemicals

Plastics

Shoes

Textile

KPDC stands as a prominent distributor of raw materials & manufacturer, actively engaging in Pakistan's nationwide markets since 2013. Our core focus is on delivering a diverse range of top-quality chemicals, ingredients, and raw materials sourced from the world's leading manufacturers.
